Cream!

BURNS CREAMERY CO. improved the prices of Cream in this District when they started to buy.

They give you checks promptly; cans next day; daily shipments; immediate attention to complaints; highest grade; top prices; service. Bring your Cream to

C. W. ROSSELL.

Agent for Burns' Creamery.

Mr. Hainsworth Leaves.

We chronicle this week with deep regret, the departure from our midst of that worthy gentleman, Earl Hainsworth, familiarly known as "Bill."

Since coming to Stony last August he has been active in every work, and leaves his mark for so short a stay. Mr. Hainsworth was an enthusiastic athlete, and shortly after his arrival he had erected the outdoor gymnasium back of his place of business on Main St. which has been taken advantage of by most of the town's juveniles, in whom he took an especial interest.

He had been an active worker in the local Methodist Church, and had taken part in the work in all departments, specializing on young people, on whom he seemed to have quite an influence. He took part in all entertainments held for their benefit, and was instrumental in organizing the Young People's Society last winter.

Bill was also a good sport, and was no doubt a great factor in making the Sports Day on July 1 the big success it was. His characterisations at the last masquerade and at the previous H-T dance will long be remembered.

In fact, Mr. Hainsworth will be missed by everybody in town, but particularly by the young people, in whom he seemed to take an especial interest. Earl has been transferred to a branch bank at Danforth, near Toronto, and left Friday night on his gasoline bicycle. Our loss will be someone else's gain, and we all wish Bill success in his new scene of operations, as we understand Toronto is a much larger place than Stony.

"BILL."

Accident on Baseline.

While passing another car on the Baseline, near the Meridian road, late Saturday night, Ford No. 5778, driven by Mr. Smith, of Edmonton, got too near the edge of the grade on the south side, with the result that the car turned turtle into the ditch. None of the occupants were seriously injured, but the auto had a broken wheel, a bent axle, and several minor damages. The driver of a passing car took the passengers in to Edmonton, and the owner came back Sunday morning with a wrecker, and the damaged machine was taken to town.

Early Morning Performance.

One morning last week the residents of the East End were awakened from their sleep about 4.30 by a band of merry-makers returning from a night's fun up north. On striking Stony, they lost their cat, which had crawled under the walkway on the Meridian Road. The gang upturned the sidewalk, and began making an effort to recover their pet, with a great expenditure of energy and a varied assortment of language.

LOCAL NEWS.

Miss Mary Miller spent Sunday with her parents at Stony Plain.

Mr. and Mrs. Master Ralph Lory are spending a vacation with Mr. and Mrs. Clarke at Victoria, B.C.

Mr. Percy F. C. Falkner spent Sunday visiting with Mr. and Mrs. Hy Schlitt.

Miss Bryan, the charming young agent for the Chautauque was successful in securing 31 signatures to 1923's "4 joyous days."

Mr. S. G. Simmons from Edmonton is the new accountant at the Bank of Montreal.

Mr. McCulla left Friday for Toronto, on business in connection with the Brotherhood.

Mr. S. O. Hadley left last week to take a position on the main line, west.

Mr. O. Starr, from Edson, is relieving at the Station in the absence of the regular man. Mr. Starr has his wife and family here.

When the new elevator opens, it is quite probable a local man will be the manager. The job having been offered to Mr. Hy Miller Sr.

A big telephone outfit arrived in town on Monday, and are working south, extending the line at Holborn from Mr. Davidson's place.

The results of Grade 11 Departmental exams were in Monday's Bulletin.

Stony Plain U. F. A. local meets Saturday evening, August the 5th. A special meeting was held Saturday night, when the order for binder twine was made at 30,000 pounds.

A fairly good crowd patronized the movies at Ducholke's Hall on Saturday last. Next Saturday evening, Charlie Chaplin's reels will be shown.

The dance announced for tomorrow evening at the Meisner Barn, 9 miles south of town, should attract a good crowd. Edmonton orchestra.

The Sunday grazing lease on the town property at the head of Main St. having expired, the public may now have access to its 80 acre park every day in the week.

A good game of football was seen Friday night last, at Spruce Grove, when the team from that place under Capt. Macalister defeated Stony's billerto victorious aggregation by 26 to 0. The home team is hoping for better luck next time.

It is expected that new tenders will be called for the erection of the concrete water tank in connection with the town's fire protection system, when the council meets tonight.

Annual Mission Festival.

The local St. Matthew congregation (Rev. E. Eberhardt pastor) celebrated its annual Mission Festival last Sunday. A Mission Festival is a festival gathering of Christians at which they encourage each other to participate in the up-building of God's Kingdom, at home and abroad. Two open-air services were held. Rev. Thies, from Westaskin, spoke sound words on the basis of John 15, 26-28. In the absence of Rev. Forber

of Bruderheim, Rev. Thies again occupied the pulpit in the afternoon, basing his discourse on 1 John 4, 19-21: We love Him, because he first loved us. It is a man say: I love God, and hate his brother, he is a liar. For he that loveth not his brother whom he has seen, how can he love God, whom he has not seen? And this commandment have we from Him, that he who loveth God, loveth also his brother.

The school children and the Young People's Choir helped to beautify the services. They sang under the direction of the teacher.

Protect Our Forests

A recent newspaper report stated that before midsummer had been reached, forest fires in Canada had already this year destroyed more timber than would be required to construct one hundred thousand new homes, or, in other words, make provision for housing half a million people.

Yet in practically every city and town in this Dominion there is an acute shortage of houses, with the result that many have climbed to unreasonable heights. Thousands of people are ready and anxious to build homes of their own, but are deterred from doing so because of the high cost of building. This high cost is made up of three main items—price of lumber, freight charges on lumber and other materials, wages of labor.

Because of these high costs only a fraction of the work of construction is under way that would be the case if costs were even slightly reduced. Because building operations are not more active, thousands of men are being kept out of employment, yet they are called upon to pay the high rentals occasioned by lack of houses.

While the high prices of lumber constitutes one of the chief deterrent factors in building operations, forest fires in Canada consume more than sufficient to erect 100,000 homes! Nor is the loss of this timber itself the only loss. These fires mean loss in lumbering operations, consequently further unemployment and loss in time and money to both workers and lumber manufacturers, loss to railways in freight, and loss all along the line of business because of decreased production. Nor can the destroyed timber be replaced by new growth within the lifetime of a generation.

A great deal to be heard these days of reforestation, but not a word too much as it is necessary that the importance of that work should be fully appreciated by both Governments and people. By reforestation is meant, in the popularly accepted meaning of the term, the replanting of forest areas which have been cut over by the lumbermen; that as the larger trees are cut down for commercial use, smaller trees or tree seed should be planted and thus provide for new growth for future generations. Let it be repeated, that it is most important that such a policy be strictly enforced.

But how much more important it is that greatly advanced steps be taken to prevent forest fires and protect the trees already grown and ready for the use of this and future generations! In no one year does Canada erect 100,000 new homes, and our people therefore do not make inroads into the available amount of standing timber that fires have consumed in a few short months. The need for the creation of a much more extensive and efficient forest protection service in Canada has been clearly demonstrated in recent years. The people of the Prairie Provinces are vitally interested in this matter as they must depend upon those Provinces having large timber areas for the lumber which they need to build their homes. Under even the most favorable conditions, the cost of lumber, due to long railway hauls and consequent heavy freight rates, is a severe handicap on building operations in the West, and if through carelessness and lack of an efficient protective service, countless millions of feet of timber are annually destroyed by fire, the handicap is thereby enormously increased.

There are broad national aspects of this question that call for consideration. Canada needs immigrants, tens of thousands of them. Each new family settled on our vacant lands requires lumber wherewith to erect houses, barns and other necessary farm buildings. The present cost of providing such needed buildings is one of the obstacles to be overcome in order to induce new settlers to come to this country and enable them to succeed. So long as millions of dollars worth of timber are buried up annually it is useless to expect any substantial reduction in lumber prices.

Nevertheless, until such reduction does take place, there is no likelihood of that revival in building construction which is now a crying need throughout Canada. The erection of more houses would provide much needed employment for all our artisan classes; more houses would result in a decline in rents, and such a decline would enable workers to accept a somewhat lower wage, and thereby remove another of the present handicaps on building operations, namely, high labor costs. Increased freight traffic for our financially embarrassed National Railways would follow. Last of all, a further inducement to immigrants would be provided.

It is furthermore generally recognized that the presence of forests have a determining effect on such vitally important matters as climate and rainfall, while a recent poster of the Fisheries Department of Canada urges protection of forests with the slogan: "No forests, no fish."

Every Government, every corporation operating in timbered areas, every hunter, trapper, camper—in a word, every individual Canadian citizen—should exercise every care and put forth every reasonable effort to prevent fires and protect Canada's forest wealth, which, to an extent as yet not fully realized, is one of the basic national resources.

Was Entirely Trustworthy

The tramp knocked at the farm house door and asked for the farmer. To that worthy he presently recited a tale of woe and asked for a job. "Yes, you can have a job," said the farmer. "You may gather eggs for me if you are certain you won't steal any." The tramp choked at the grand ruse and emotion. "Sir," he said, "with eyes brimful of unshed tears, 'you could trust me with any mortal thing on earth. For twenty years I was manager of a bathhouse and I never took a single bath.'"

DIARRHOEA IS DANGEROUS To Teething Babies DURING HOT WEATHER

Hot weather is a dangerous time for the babies when cutting their teeth, and all mothers should watch very closely for any sign of diarrhoea, dysentery, cholera infantum or any other bowel trouble.

There is no remedy so safe and effective for diarrhoea as Dr. Power's Extract of Wild Strawberry, and all mothers who have used it speak of it with the greatest of confidence.

Mrs. James E. Green, Vermilion, Alta., writes under date of Aug. 13th, 1921, as follows:—"A week ago my baby boy, just one year and four months old, started cutting two stomach teeth, and was so sick he couldn't eat or sleep, and had the diarrhoea most terribly bad; his rectum was raw and bleeding. I gave him Dr. Power's Extract of Wild Strawberry regularly for three days he was as well as usual. I would not be without your grand remedy for untold good."

Dr. Power's for sale at all dealers; price, 50c a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

Women Ornamented by Soars

In New Holland the women cut themselves with shells, and, keeping the wounds open a long time, form scars in the flesh, which they deem highly ornamental.

"COLD IN THE HEAD"

Is an acute attack of Nasal Catarrh. It is caused by the "cold" in the head which finds that the use of HALL'S CATARRH MEDICINE will help the system and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is safe, generally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Full directions. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Russia's Finances

Only Experts in Higher Arithmetic Can Understand Figures

Russian financial statements presented at The Hague are without meaning to men of ordinary mathematical training. Only astronomers and other experts in higher arithmetic have experience in numbers running into hundreds of thousands of billions. When we say that the Russian has outstanding national currency amount to 270,000,000,000,000 roubles, we speak an unknown tongue. It might help a little to divide it up but still say that there is a note issue of \$2,000,000 for every man, woman and child in the Soviet republic.

Last month Russia added 60 per cent to the currency by printing notes of the face value of \$5,000 and \$10,000. It may make this statement easier to understand if we say that every three days Russia issued roubles to the nominal amount of the present British national debt. From the Vancouver Province.

Mindard's Liniment for Dandruff

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Exact Copy of Wrapper.

Children Cry For

Let's Think It Over.

There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore. The truth is always welcomed, and the truth reiterated and confirmed is more than welcome—it reaches your innermost soul.

Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers. And once used, mother love—there is no substitute for mother love—will soon go to try a "substitute" or a "just-as-good."

Masking under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out. Are they cast out before it is too late?

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the health of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that these prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers best friend is Baby's Own Tablets. They regulate the bowels, soothe the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The ordinary varieties of ferns are in great use in China and Japan as articles of food.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are completely harmless, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak indigestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

It is reported that a Vienna doctor has succeeded in transplanting eyes from one animal to another.

For Fascinating Eyes make the use of Murine a daily habit. This refreshing eye lotion contains no harmful ingredients, is perfectly safe, and is sold by all druggists. Sold by all druggists.

A Cruise on the Great Lakes

Enjoy to the Fullest Extend the Trip East

The trip to Eastern Canada or the United States can be made doubly enjoyable by including the delightful cruise on the Great Lakes from Port William and Port Arthur to Port McNicoll or Owen Sound on the Palladian Canadian Pacific Steamers "Keweenaw," "Assiniboia," and "Manitoba."

Three sailings a week from Port William and Port Arthur every Wednesday and Saturday to Port McNicoll, where direct connection is made with special train for Toronto, and every Thursday for Owen Sound. The Great Lakes trip is a delightful diversion to the East—restful, cool and refreshing.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailings, etc., and arrange every detail for an enjoyable trip.

A pleasant medicine for children is Mother Graves' Worm Expeller, and it is excellent for driving worms from the system.

An Accomplished Gaiety

"This is a nice canoe, isn't it, Maud?" said the tall, dark young man. "Very nice indeed, Charlie," replied the pretty girl sitting in the stern. "There's just one objection to it," said the young man.

"Indeed! And what is that?" asked the girl. "Oh, well, you see, if you try to kiss a girl in this canoe there's great danger of upsetting it, and then both the fellow and the girl would be thrown into the river."

"Oh, indeed," said the girl reflectively. And she sat silent for a while. At length she remarked softly: "Charlie, I can swim."

New Use for Old Tires

A Hutchinson motor tire dealer has halved his shoes with strips from a highly guaranteed tire in which he deals, figuring that if the tires are guaranteed good for 8,000 miles under a car weighing a ton the mileage under his own 140 pounds ought to be practically unlimited—Kansas City Star.

EAST AND WEST AGREE

Lydia E. Pinkham's Vegetable Compound is Helping Sick Women to Health

The two letters which follow clearly show the broad field covered by this well-known medicine. Women from every section—your know some is your own—endorse—praise Lydia E. Pinkham's Vegetable Compound as a wonderful medicine for troubles women often have.

From Prince Edward's Island—East

Miscouche, P. E. I.—"I had female troubles for two years. I always had a headache and a pain in my side and sometimes I felt so weak that I could not do my work. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I have taken six bottles of it. It has done me a lot of good and I am still taking it. I will tell my friends of your medicine and hope they will try it."—Mrs. CAMILLE DES ROCHES, Miscouche, P. E. I.

From Saskatchewan—West

Wadena, Saskatchewan—"A friend in Rose River recommended Lydia E. Pinkham's Vegetable Compound to me and it has been a great help to me. I recommend it and you can use this letter as a testimonial if you wish."—Mrs. PETER NOBLES, Wadena, Saskatchewan.

W. N. U. 1481

New Relief Maps Are Proving Of Great Value To Prospective Settlers

When the motorist consults his road map or the teacher in the schoolroom refers to the wall map, it is ordinarily a flat map. It shows the roads, railroads, rivers, lakes, cities, towns and the other features, all placed upon a flat surface. Hills and mountain ranges, valleys and prairie lands are not distinguished except perhaps by conventional signs or lines which assist the mind in the endeavor to picture the real aspect of the country.

Mountains, hills or ridges, if shown at all, may be indicated by shading or a system of fine radiating lines to represent shadow, or by a series of lines of equal elevations above sea level called contour lines. The latter method gives actual elevations of the land and is thus a much more precise definite than the former as it conveys more information to anyone expert in "reading" the contour lines and gives an accurate mental picture of the configuration or relief of the ground.

Relief maps have thickness as well as length and breadth and one sees upon them the valleys and rivers and streams, the steep hillsides, the gentle slopes and level places. One sees where railways have to be located to get easy grades, where roads require to be diverted to avoid steep hills, what areas can be drained and in what direction in which the outlet will be found, why some rivers are sluggish while others will furnish water power and many other things of interest. The engineer or municipal officer can explain clearly projects unfamiliar with maps.

In the opening up of a new country, relief maps tend invaluable help to the layman and the prospective settler, often unaccustomed to the proper interpretation of contour lines, may obtain from them a clear understanding of the "lay" of the land, the drainage, its proper drainage, the grades involved in hauling to market, and so on.

It was out of their need of some such means for illustrating the relief in territory where road construction, drainage, clearing of lands and other development work was proposed for soldier settlement that the Topographical Survey Branch of the Department of the Interior began the making of these maps on a small scale. Where there was some specific purpose to warrant it, they have been made from time to time. These relief maps are constructed in such a way that after the first map is produced, duplicates are quickly and easily made at little cost.

Although there have been no attempts at distribution, these maps have attracted considerable attention and requests have come from various organizations to supply different models of cost.

The extended use of relief maps in the schools would be a valuable aid to the study of geography. They lend themselves to a more complete understanding of geographical terms as for instance, for such features as ridges, spurs, escarpments, cliffs, plateaus, etc. The relative elevations of various parts of the country studied would be seen at a glance. Drainage areas could be worked out by the class and the question of definite or indefinite water sheds dwelt upon. The location of railways, with reference to the configuration of the country, the grades encountered, and the necessity for grading crosses (through hilly or mountainous regions) would be seen.

The Hottest Place
The hottest place in the world has been found by the United States Weather Bureau. It is in Death Valley, California, where a substation has taken records of the temperature for a period of ten years. The extreme maximum temperature shown it to be the hottest known region on earth. A temperature of 134 degrees F. was recorded on July 10, 1913, and this is believed by meteorologists to be the highest natural air temperature ever recorded with a tested standard thermometer exposed in the shade under approved conditions.

An elephant is possessed of such a delicate sense of smell that it can scent a human being at a distance of 1,000 yards.

French Reclaiming Mines

Have Rebuilt 2,000 Miles of Galleries Destroyed by Germans

The task of reconstruction in the Nord and Pas de Calais among the coal mines destroyed by the Germans is being pushed on with feverish activity, according to the Paris correspondent of the Times, and every day brings the moment nearer when they will once more be in full swing.

The report of the work accomplished during 1921 shows wonderful results. In the Nord the four groups have been linked up again; pumping operations are virtually terminated at Ailincourt, Thivencelle and Fines; and at Escarpelle, the lower stages of all pits will be dry by the end of this year.

The Amay, d'Arenberg, Tempe, Rœux and Blaise-Rois pits are now dry, and the remaining five pits will be cleared by June of next year. In Pas de Calais, at Bourges, Courrières, Lens and Liéven, many pits are already dry, and in others the water is fast disappearing from the bottom. Up to the present over 600,000 cubic feet of water have been pumped out.

Reconstruction of pit bottoms is proceeding apace, considering the appalling havoc wrought by the enemy. Nearly 5,000 miles of galleries had to be rebuilt, of which 600 miles had been abandoned during German occupation and 147 miles systematically flooded. The reconstruction of the bottom is the all important task, and it can only be carried out step by step. The advance varies between forty and twenty inches a day.

Is the Earth Pear-Shaped?

Director of French Observatory Suggests Using Wireless to Find Out

Many of us laugh at the people who in past times thought the world was flat. But are the laughers any more correct in their belief that the world is round?

That it is a sphere, we know, because we can see it for ourselves when a ship sinks below the horizon. But it is not shaped like an orange, as many suppose. The "Globe" is not a strictly accurate expression for it.

Recent measurements by astronomers point to the belief that the earth is like that of a pear. But more careful and systematic methods are needed to give us exact knowledge, and the director of a French observatory suggests that we can make absolutely sure by means of wireless.

If all wireless stations establish a time-chain, signalling to each other and recording the distances between them calculated by the transmission of radio waves, a network of observations will be cast around the earth, and by working out the results its shape can be found.

This would be valuable as well as interesting; many calculations, not only of astronomers, but of navigators and geographers, would be affected by it. And if it were repeated at regular intervals, we should know whether the shape of the earth alters from time to time, and how the alterations are caused.

Business Honor

Louis K. Liggett, the well-known drug magnate who failed and, then paid off his creditors in full, was congratulated by a Boston reporter on so highly honorable an act.

"I believe in business honor," said Mr. Liggett, "though the business honor of some men reminds you of the golf club that had to put up the rule."

"Notice—Members must refrain from picking up lost balls until they have stopped rolling."—Minneapolis Tribune.

Record in Milk Production

Maple Leaf Jean, an Ayrshire cow, owned by Capt. A. Henry Higginson, of South Lincoln, Mass., has established a new world's record for her class by producing 16,978 pounds of milk in 360 days. It is announced by the Ayrshire Breeders' Association. Maple Leaf Jean won first prize three times at the National Dairy Show. She is a former Canadian grand champion.

Exploration Ship Coursing Back Home

Steamer Quest Is Not Suited for Antarctic Work

It is expected that the Quest, the expedition ship, during the adventurous party commanded by the late Sir Ernest Shackleton will return to Southampton in September next. The vessel put in at Cape Town on her way home after carrying out the work of scientific observation and exploration which was originally intended. En route to this country she will visit Trinidad Island, in the South Atlantic. Commander Wild, who is in charge of the party, is bringing with him a film of birds and animal life, of which new specimens have been found, and complete geological and biological data gathered of unknown islands. "I am quite satisfied with the results of the expedition, but would like to have done more," he declared in an interview at Cape Town. "Future plans are uncertain, but we are not returning south. We may carry out some work in the Pacific, searching for lost islands. The ship is rather underpowered for Antarctic exploration. The Quest is badly in need of an overhaul, and is lacking slightly as a result of collisions with the ice. The crew agree that, although a small-size vessel is much harder for navigating in ice, this has been carried beyond the limit in the case of the Quest. The men are suffering severely from sea-sickness, even seasoned sailors like Commanders Wild and Worsley succumbing. Further, there is an entire lack of comfort aboard owing to the cramped quarters. The coal supply is so small that whale and seal blubber had occasionally to be used for fuel."

Algeria has a river that literally is filled with hot water formed by the union of streams, one of which is impregnated with gallic acid and the other with iron.

Vultures are used in Costa Rica to keep the streets clean by devouring the refuse on them.

Caterpillars And Other Insect Pests Destroyed By Use Of Airplanes

Discovers New Suns

Dr. Plaskett, Victoria Observatory, Finds New Heavenly Bodies

Two suns, 52 quadrillion miles from the earth, have been discovered by Dr. J. S. Plaskett, director of the Dominion Astrophysical Observatory, Victoria, B.C., through the observatory's big 75-inch reflector telescope. Scientists herald the discovery as the outstanding astronomical achievement of recent times. The suns have been named Plaskett, after their discoverer.

The light, which, travelling at the rate of 186,000 miles a second, started from these suns 5,000 years before there was any creditable human history on this earth, reached here only today.

An airplane travelling from this earth at the rate of 200 miles an hour would require 30,000 million years to reach these twin suns.

They burn at a temperature of 30,000 degrees Fahrenheit at which whirl around one another. One, the more massive, is 75 times the bulk of our sun. The lesser is 63 times heavier. One is 15,000 times as bright as the sun, the other 12,000 times as bright. Plaskett is more than five times as large as any other known heavenly body.

Professor Harold Jacobs, of Columbia University, noted astronomical authority, declares it is "most remarkable investigation and discovery." It is outstanding among recent astronomical investigations, he says, and declares that the measurements recorded by Dr. Plaskett must be accepted as most reliable.

A piece of human bone will support half as much weight again as a piece of the best oak of the same thickness.

Yet another field of service has been found for the aeroplane and one that has already been assayed with marked success. Recent experiments in Ohio have shown it to be possible for caterpillars and other pests that wreak havoc in orchards and forests to be exterminated by a bombardment with chemicals from the air. After a six-acre caltapa grove near Dayton had been stripped bare of leaves by caterpillars in two successive seasons and signs of a third year devastation had become apparent, some imaginative member of the Ohio Department of Agriculture conceived the idea of destroying the pests by means of a poisonous substance raised from the air. The assistance of the United States army air service was enlisted and it dived Lieutenant John McCready, holder of the world record for high altitude, to carry out the scheme. Flying low and carrying a sifter charged with 600 pounds of arsenate of lead, the aviator maneuvered his craft along the windward side of the grove until he had literally drenched the whole plantation with the poison. Next morning millions of dead caterpillars were found on the ground.

Incidentally, the caltapa trees also died. But it was not the chemical that killed them. It was just a case of calling in the doctor after it was too late to save the patient. The trees had been so weakened by the three successive caterpillar assaults that they died of exhaustion. It is the belief of the foresters that earlier use of the poison would have saved the entire grove. Faith in this airplane treatment was, in fact, so firmly established that it is to be applied to another caltapa plantation near Troy, Ohio.

The United States Department of Agriculture has now become interested in this method of fighting forest pests. Experiments treatment of trees by airplane operations are to be made. Captain Robert E. Kinlock has been ordered to operate in New England. From a base at Concord, New Hampshire, he will fly over forests of Glastonbury Mountain in Belknap County. In this experiment poison gas, instead of lead arsenate, will be tried. Bomb containing a recently evolved gas, harmless to human beings and to vegetation but deadly to tree pests, will be dropped over a wide area until the insects are thoroughly saturated with it. Comparison of results in this case with those obtained in Ohio will be made and the relative merits of the two treatments will be established. The ravages wrought by insects in orchards and in forests have been so alarming in recent years that the results of these experiments will be awaited with keen interest. If successful, the treatment will open a new field for airplane activity and industry of incalculable value.—St. Thomas Times-Journal.

Fire Prevention Day

Co-operation of All Is Sought by Government Proclamation

Because of the great loss of life and property by fire during the past decade, the Government, by proclamation, is calling upon all citizens to exercise special care and to observe October 9 as Fire Prevention Day.

According to the proclamation, citizens will be required to inspect their dwellings and remove all conditions likely to cause fire. Inspection is also applied to factories, public buildings, hospitals, and other institutions. The proclamation recommends fire drills in schools and all large stores and factories. Special instruction is recommended to be given by school teachers, municipal officers and boy scouts.

In the bush, operators of lumber camps, settlers and hunters will be required to acquaint themselves with the regulations governing the prevention of fire. There is also a recommendation that all legislation and regulations dealing with fire prevention be given proper publicity.

Lord Kelvin, the famous physicist, entered the university at the age of eleven, and was a professor of natural philosophy at the age of 22.

Cubs That Travel on Their Parents' Back

"WELL, what in the world is that?" cried one of the Brownies, pointing to a strange looking beast that was shambling slowly around the Get-Little-Pool towards Stella, the Wishing Fairy, who sat surrounded by her four Brownies. "But I soon will, for I am going to find out, and I'll make our fat friend yonder drink from our magic pool so as to grow a bit smaller. He's too big for my liking!" And away he went, leaving the others waiting.

It seems that the stranger was Mr. Sloth Bear and he had struggled the tremendous distance to the End-of-the-Earth, with a message for Mrs. Bear. And away he went, leaving the others waiting.

"Those cubs of mine," he exclaimed apologetically, "are rascals. They are always running and tumbling around in different directions until their poor mother is quite tired out and discouraged. She couldn't even leave them to come here herself, so I told her that I would and I could tell you her wish just as well as she could herself. Heaven! I ought to be able to, for I've heard her sigh and grunt often enough and groan about her wish. I know it backwards and forwards by heart!"

"Then she wanted to know what she should do?"

"She wants to be able to keep those cubs more quiet," to make them 'stay put,' so to speak."

"That is easily done," said the Wishing Fairy said quietly. "When you reach home tell Mrs. Bear that she must force her cubs to scramble up on her back. If they won't do it, she can spank them soundly until they do. Once on her back (or yours either) they will be so afraid of falling off that they will give all their attention to hanging on. That alone will keep them busy and as quiet!"

How the Brownies laughed when they heard this! And so did Daddy Bear. He could hardly wait to get home and tell his wife the good news of how her wish had been granted.

But before he left, however, he first talked a lot about himself, so that by the time he was ready to go, those at the End-of-the-Earth knew pretty much all that there is to know of Sloth Bears.

Though the really believe in the great Bear family they are even more closely related to the Sloth, who, as you know, is the slowest of all animals and delights in hooking his strong claws around a branch and hanging down in the slumbery pose.

But Sloth Bears are very agile and active, and do not at all resemble the Sloths in their actions.

They travel around at night prowling here and there for food instead of going forth by daylight, and they eat berries and fruit as well as insects.

We especially like the Axta of our country, (which, by the way is India). Mr. Bear said with a grunt, "and nothing is more fun than digging up an ant hill. The Axta run wildly around and then we just kick them up as fast as we can. When we last open the sun rises of a hill, we suck up all the baby ants and eggs and, yum! yum! they are delicious."

"When we travel around, we always keep together," said the whole family, "Daddy Bear murmured with a grin of reassurance, "and you can't grant my wife's wish, our traveling will be much easier than ever before; for now we will be able to manage those cubs of ours!"

HELPS A WEAK THROAT STRENGTHENS THE VOICE RELIEVES BRONCHITIS

By Breathing the Healing Balm of Catarrhine. You Are Made Well Without Using Drugs!

You breathe through the Catarrhine Inhaler medicated air that is full of healing, soothing balsam: full of piney antiseptic essences that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvelous action on weak throats. It brings strength and health to the bronchitis, stops that hacking cough and difficult breathing. You can't find anything for weak-throated people more beneficial than Catarrhine. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarrhine which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, costs \$1.00. Medium size, 50c; sample size, 25c. All storeskeepers or the Catarrhine Co., Montreal.

MY CANADA

—BY—

X.
Winnipeg,
July 5th, 19—

I am back in Winnipeg again, with Mrs. Arnold to mother me, Mr. Arnold to father me, and Mary to keep a constant watch over my manners and morals. The strong-minded and aggressively independent Elinor is rather glad to be here, much as she is reluctant to admit it.

Mrs. Fluke and Gypsy brought me in to the train yesterday afternoon. Gypsy, I know, was sorry to see me go, and I am tempted to believe that Mrs. Fluke was also. We called on Mrs. Mills for a moment, and then did not leave Elba without saying goodbye to her and Mr. Hartford.

The train was half an hour late, but that surprised no one. In fact, the "oldest inhabitant" assures me that in the winter the train becomes "late" each day, until at regular intervals it is on time because exactly twenty-four hours late.

I had scarcely settled myself when a man rose from the opposite end of the coach and came over to where I sat.

"You're Miss Elliot, ain't you?" he asked, raising his hat awkwardly.

"My name is Brown, Jerry Brown of Brownsville, Saskatchewan. I used to live hereabout and I've just been home to see Mother. I was at the picnic on Friday, and I seen you with the Flukes and the Livingstons, but never got close enough to get an introduction to you, so I hope you will excuse me speaking now. You English ladies ain't much travelling alone, I guess, and there's some tough characters goes back and forth on this line."

By this time Jerry Brown of Brownsville was so hot and embarrassed that his collar was wetting visibly. I thanked him for his knightly courtesy—not in those words, of course—and after falling over my bag and apologizing profusely he threw his hat in the rack, sat down in the other half of my section, and proceeded to while away the weary hours.

News travels swiftly in the Elba district, apparently for some casual remarks that Mr. Brown let fall I think that his life-history is so far as it relates to my stay in Elba is fairly well known to him. He was very frank about his own affairs, told me in the first half-hour that his mother had been left a widow thirty years ago, and that with her five small children she had come West and taken up a homestead. He did not say very much about the inevitable hardships, but he did tell me that last winter he took his mother "back East among her folks and gave her a rattling good time."

Here he chuckled.

"You should have seen Mother at a picture show. I took her to the widest Wild West one I could find, and I'll bet she liked it, though she did pretend to be shocked. What troubled her most was the cowgirl with red poppies in her hair and red 'chaps.' She wouldn't go to sleep that night until I swore on my honour that there weren't no cowgirls round about Brownsville. You know what mothers are like."

At this interesting point the news-boy came along, crying his wares.

"Winnipeg Free Press, Tribune, and Telegram! All about the big fire in a shoe factory—five hundred souls killed."

"Were the burned too?" asked Mr. Brown.

The boy grinned appreciatively.

"Say, son, you're getting good to eat!"

"Peanuts, popcorn, chewing gum, and caramels. Regular price twenty-five cents per package, but ten cents seeing it's you."

"Guess I'll have some gum," said Mr. Brown. "I've been telling the story of my life to this here young lady, and it's dry work." Then he turned to me, "You don't chew, I suppose."

"Why, no," I replied; "but don't let me keep you from it."

So he bought a package of gum for himself and peanuts, papers, and a magazine for me. Talk about American Yellow Journalism, that magazine was burnt, orange!

Mary met me at the station and did not show the surprise she must have felt when I introduced Mr. Brown.

"I'll see you later," that gentleman announced as he picked up his bags.

"What did you say your address was?"

"I had not said that I so much as had an address, but Mary innocently broke in with, '314 Collegiate Avenue. Elinor never remembers numbers, so it's lucky that I am here to tell you the right one.'"

I could have shaken her, but of course she did not know at that time how Mr. Brown had happened to be with me. And when I told her, that night in the privacy of my bedroom, she threw herself face down on the bed and laughed until I began to think that she was hysterical.

"I cannot see anything so very funny," I objected at last.

"Elinor," she said, when she could speak without laughing, "I should never have suspected you of such a thing! To think that any well-bred English girl would so openly encourage a misguided youth!"

"Misguided youth!" I retorted. "He is thirty-seven—he told me, so himself."

"Well, young or old, he has matrimony in his eye, or I'm no judge. His poor trusting mother—she was so sure that he was safe from all designing creatures."

"Mary," I replied, with all the dignity I could muster, "if you do not treat my confidences with more respect, I will never tell you another secret!"

This dire threat made her reform—for a time. But this afternoon, when a box full of roses came from the florist's "with the compliments of Jerry Brown," she told me that the red poppies were in bloom and that she could lend me some invisible hairpins. I am very much afraid that Brother Jeremiah—that is Mary's name for him, it is only in an emergency that she calls shone by his or her proper name—will think it necessary to call, as much as I regret to say it, I cannot answer for Mary's good behaviour if he does so. Age cannot wither, nor custom stale, her infinite variety of devices for the embarrassment of weak humanity.

The Arnolds have other guests at present—a Mrs. Bingham and her five-year-old daughter Sunny, from a ranch near Carbon City, Alberta. Sunny and I fell in love with each other at sight, and this morning she came into my room before I was up to show me snapshots of her home and her dog and—last but not least—"Daddy and Uncle Don."

Opportunities In The Veterinary Profession

If you desire to enter a profession you should consider what the new field of Veterinary Science has to offer. Graduates have splendid opportunities for a successful career. You should inquire.

SESSION BEGINS OCTOBER 2nd, 1922
Write for Bulletin and Calendar to C. D. McMillan, M.D.V., Principal
ONTARIO VETERINARY COLLEGE
Affiliated with University of Toronto TORONTO, ONT. Under the Ontario Dept. of Agriculture

"Excuse me, Miss Elliot, but I have looked everywhere for Sunny, and Mary suggested 'that she might be here.'"

"I'll come in a minute, Mother," Sunny promised, "but I'm just telling Miss Elliot about the time David nearly killed Thomas a Becket when he was going to steal the chickens," and she went on with her story.

David is the dog, a fox-terrier, and Thomas a Becket is the cat.

"Was David called after the David who killed Goliath?" I asked when the story was finished.

"No," answered Sunny. "Uncle Don named him David Lloyd George 'cause he's the dickens of a fighter, but we call him David for short."

(To be continued)

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- | | | |
|-----------|-----------|------------|
| Colds | Headache | Rheumatism |
| Toothache | Neuralgia | Neuritis |
| Earache | Lumbago | Pain, Pain |

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoclonaldehyde of Salicylic Acid. It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Bungalow Camps in Canadian Pacific Rockies

Situated on the shores of Lake Emerald in whose green-fair-blue waters are reflected the clear blue sky and snow-capped mountains is Emerald Lake Camp, one of the most delightful spots in the Canadian Pacific Rockies. Picture 1 shows a group of bungalows shaded by tall evergreen trees. (2) Just a corner of Emerald Lake.

For the vacationist there are few other resorts which offer so many attractions at such moderate prices as the comparatively new Bungalow camps in the Rockies.

(4) One of the visitors returning to

Emerald Lake from a ride in the mountains. Included in these rare beauty spots is Lake Windermere camp which consists of twenty-two rustic-type bungalow cabins for living purposes with a central club house for dining, dancing and social recreation. (4) A group of guests at the central club house, Lake Windermere Camp. Another popular mountain resort is Lake Wapta camp, where the Canadian Pacific Railway has built several well-equipped bungalows. (5) The railway station at Hector, B.C. where the tourist alights for Wapta Camp.

Spend Fifty Millions On Canada's Highways In Five Year Period

Ottawa.—Fifty million dollars will have been spent on improving Canada's highways when the five-year period terminates in the fall of 1923, according to reports received by A. W. Campbell, Dominion Commissioner of Highways. Of this total twenty millions will have been appropriated by the Dominion Government and the remainder by the different provinces. Of the federal sum there is yet \$300,000 to be taken up by the provinces.

Agreements have already been entered into by the province of Ontario calling for an expenditure of \$12,500,000 by the end of 1923, of which sum five million is the federal share.

The new Brunswick Government have now all of their appropriation of three million under agreement, the Dominion Government contributing \$1,500,000. A total of 1,335 miles of highways is on the programme for improvement. Alberta, the last province to take part in the national highways scheme, has just filed for approval plans for roads improvement under the Canada Highways Act. All the provinces are now working under the general regulations provided by the act, and the work throughout these provinces is now being carried out, in accordance with the uniform standard specifications.

Royal Family May Return to Bavaria

Socialists Protest Against Removal of Ban on Exiles

Berlin.—The Bavarian Government issued a decree intended to replace, so far as Bavaria is concerned, the legislation recently passed by the Reichstag for the defence of the republic. The decree omits the clauses in the Reichstag enactment relative to the establishment of a special tribunal, the competence of the German minister of the interior to prohibit meetings and suppress associations, and the competence of the Central Government to prohibit members of the former ruling house now living abroad from entering Germany. It also declines to allow non-Bavarian police to take independent official action in Bavaria.

The Socialist section of the Bavarian Landtag has issued a manifesto declaring every attempt to counteract the Reichstag legislation for the defence of the republic is an attack upon the political unity of the nation, while the Bavarian instance upon special rights in this connection has caused alarm in Northern Bavaria, as well as in Berlin.

Australia Will Find Work for Unemployed

Government Offers to Spend \$10,000,000 Unifying Railway Gauges

London.—Premier W. M. Hughes, of the Australian Commonwealth, according to a Reuters' dispatch from Melbourne, in replying to a deputation of unemployed men, said that the Commonwealth Government was ready to spend \$2,000,000 on the unification of the railway gauges in Australia and thus give work to large numbers if an agreement could be reached with the various Australian states.

Those Having Sick Animals SHOULD USE

Good for all throat and chest diseases, the temper, Croup, Sprains, Bruises, Cuts, Burns, Stomach, Rheumatism, Head-ache, etc. Should always be in the stable.—SOLD EVERYWHERE.

W. N. U. 1431

Strike Bargain With Rating Companies

Railroads of Britain Reduce Yearly Expenses by \$2,000,000

London.—The railway companies in Great Britain have secured a remarkable bargain from the rating authorities. Pleading serious loss of revenues they persuaded the National Union county assessment committee to make large reductions in the sums demanded from them for taxes.

Every parish through which a railroad passes levies tax rates upon the property on the basis of the assessment, which is broadly determined by the revenue of the company. The reductions granted possibly average 25 per cent, representing an aggregate saving to the railway companies of over \$2,000,000 a year.

Grain Shipments for Europe

Fifty Million Bushels Creates New Record for Montreal Port

Montreal.—Figures supplied by the Grain Clearance Board of this port show that from the opening of navigation to the evening of July 23, almost 50,000,000 bushels of grain were shipped to Europe from Montreal, a performance that creates a new record, exceeding that of last year by nearly two million bushels. The record of last year, when 33,453,899 bushels, or nearly fifty millions more than were shipped from any other port on the North American continent, will probably be exceeded this year at the present rate. M. P. Poirer, general manager of the port and chairman of the Grain Clearance Board, said.

Will Consolidate Soldier Settler Loans

Converted Into One Loan for 25 Years

Edmonton, Alta.—Of great importance to the large number of soldier settlers in the west is the announcement that all the loans made by the Government prior to April 1, 1923, will be consolidated into one loan for a period of 25 years. This applies where a veteran has made three separate loans, stock, equipment and farms. Men established between October 1, 1919, and October 1, 1920, will have three years' grace in interest payments, and men established between October 1, 1920, and October 1, 1921, will have two years' grace.

Germans Must Destroy Range Finding "School"

Buildings Established at Strategic Points on Kiel Canal

Paris.—The Council of Ambassadors decided to send a sharp note to the German Government demanding the immediate destruction of the fire control and range finding school, which the German naval authorities have quietly established at strategic points on the Kiel Canal. Allied experts opinion has declared the school is convertible into a fort commanding the entrance to the canal.

Conference May Be Delayed

Washington.—Negotiations with financial representatives of Great Britain for funding of that country \$5,000,000,000 war debt to the U.S. scheduled to begin early in September, may be deferred until the latter part of that month, it has been indicated at the treasury.

Three members of the allied debt funding commission will be away from Washington during the first part of September, it was explained.

May Authorize Sale of Vodka

Moscow.—A decree authorizing the sale of vodka, which has been prohibited since 1914, is expected to be issued on Aug. 1. The pre-war strength of vodka was 45 per cent. alcohol; under the new decree the strength will be 35 per cent., and the manufacture will be undertaken as a state monopoly.

Actual Removal Of The Cattle Embargo Only Matter Of Time

Deny Reports Of Syrian Revolt

Officials Say News of Rioting Was Greatly Exaggerated

Paris.—Reports received from Cairo by way of London that an attack on French troops in Syria and serious rioting followed news of the confirmation of the French mandate for Syria are greatly exaggerated. It was declared in official circles here. Reports that the rioting bordered on revolt were denied.

Cairo.—The Syrian committee here announced that when news that the League of Nations council had confirmed the French Syrian mandate was received in that country a band of Syrians attacked French troops at Sadrin, killing two officers and 17 men, destroyed two tanks and captured a number of prisoners and a quantity of war material. The French are reported to have been forced to retreat from Damascus.

The Syrians also are reported to have brought down a French airplane at Sadrin and to have attacked a French outpost at Javrouk, killing 15 Frenchmen. The committee alleges that disorder has broken out in the whole of Syria.

Extend Rural Phones

Providing for Further Phone Construction in Rural Alberta Sections

Edmonton.—Contracts for 1,100 miles rural telephone line construction have been awarded by the provincial telephone department, comprising the second instalment of the Government's programme for the 1922 season. The mileage represented in the contracts, six in number, is spread over all parts of Central and Southern Alberta, the total expenditure involved will be about \$125,000.

It is expected that the 1,100 miles of new lines will almost or entirely complete the work to be done this year in the way of rural telephone construction. Some 1,400 miles of similar construction had already been done on previous schemes, for which contracts were given in the early part of the season as the cost of which was about \$150,000.

Morden Team Wins

Awards Given in Boys' Livestock Judging Competition

Brandon.—The boys' livestock judging competition of the provincial exhibition carrying with it the James McCurdy Memorial Cup, has been won by the Morden, Man., district boys team, with a score of 1,006 points. Elgin was second, two and a half points behind the leaders. Eleven teams competed in the competition, which comprises the judging of heavy horse, beef and dairy cattle, sheep and swine. Each team was allowed twenty minutes to complete the awards.

A Holstein cow owned by W. Hepburn, of Virden, Man., has established what is believed to be a record for Manitoba for production. This cow's record for the past year, as shown by a test just completed, totaled 26,013 pounds of milk.

Germans Land Cargo at Australia

London.—Although the official embargo against importation from former enemy countries to Victoria, Australia, does not expire until August 1, the first consignment of German cargo to reach Australia since 1914 is now being landed. The Victoria Government gave official notification on June 9, that the ban on importations would be lifted on the first of August.

Protest of Veterans

Regina, Sask.—Protest of Saskatchewan veterans over the failure of the federal authorities to appoint a western representative on the committee to investigate the pension charges made by the Great War Veterans' Association were forwarded to Grant McNeil, Dominion G.W.V.A. Secretary, by the provincial body here.

London.—The debate in the House of Lords indicates that the peers are inclined to regard the actual removal of the embargo against Canadian store cattle as only a matter of time and some strong advocates of the embargo manifested a disposition to accept the situation.

Proceedings were a continuance of the debate started on July 12, when Lord Chaplin presented a resolution urging the maintenance of the embargo and Lord Lincolnshire moved a resolution demanding the fulfilment of the pledge of 1917 that the embargo would be removed. The weight of the speech of July 22 were decided by against any change of policy, but sentiment, it was shown, on the issue, has undergone a remarkable change in the meantime.

After a considerable array of prominent peers had addressed the House, the Lord Lincolnshire amendment favoring unconditional removal of the embargo was voted down by 91 to 52, but the House adopted the Lord Long amendment as a substantive resolution, accepting the conclusions of the Finlay Royal Commission that Canadian herds were free from the plague of pleuropneumonia and foot and mouth disease, and expressing the opinion that steers from the Dominions might be admitted as store cattle subject to quarantine precautions.

Lord Ancaster, who represents the Board of Agriculture in the upper chamber, made it quite plain that he anticipated legislation lifting the embargo and that he was only anxious that their removal of the embargo should be accompanied by certain safeguards.

"I recognize," said Lord Ancaster, "that the tide is against us, and that we have to expect legislation later. I can only hope that if there is a reversal of our present policy the effect may not be as serious as some suppose."

Report of Progressive Liberal Fusion

Much Doubt is Expressed As to Its Probability

Ottawa.—Statements published in Quebec that 52 Progressives, members of parliament, had announced their willingness to join the Liberal party, are received here with reserve. It is generally understood that there were some kind of pourparlers between some Progressives and some Liberals looking to closer co-operation, but it has been stated positively that there was no agreement reached of any binding character. It is regarded, as well established, there was no offer of "unconditional union" with the Liberal party.

Winipeg.—The weather must be pretty hot down there. "The whole thing is a dream," said Hon. A. H. Hudson, C.M., member for South Winipeg, interviewed here in connection with the report that he had been instrumental in converting 52 Progressive members in the federal house, to Liberal party, and that he would enter the cabinet.

BEAUTY OF THE SKIN
is the very want of it, and is obtainable by the use of Dr. Chase's Ointment. It removes all pimples and redness of the skin, restores the skin to its natural color and texture, and makes the skin soft, smooth and velvety. It is the only skin preparation that is guaranteed to be pure, safe, and effective. Dr. Chase's Ointment is sold everywhere. Sample free if you enclose this paper.

Dr. Chase's Ointment

A BANK FOR THE FARMERS OF CANADA

FARMERS can consult with this Bank with the knowledge that their problems will be understood and their banking requirements efficiently handled. We have made a careful study of the financial needs of farmers, the difficulties they encounter, and their ways of doing business.

A New Bull at The Farm.

What is stated to be one of the finest young Holstein bulls on the American continent, has been purchased by the Alberta department of agriculture, for the high class Holstein herd at Stony Plain demonstration farm, which will later be moved to the government farm at Half-way House, near Edmonton. This bull, Sir Sylvia Car Born aged a year and a half, is the product of a long line of noted Holstein ancestors of the most aristocratic type, ancestors which have held world's records for milk and butter production.

The bull was purchased from the famous herd of Senator A. C. Hardy of Brookville, Ont., as a result of a visit paid there recently by Hon. Geo. Hoadly, and S. G. Carlyle. They had visited several herds in Minnesota and Wisconsin as well as in Ontario, but came to the conclusion finally that the bull purchased from the Senator was the best.

18,079 lbs. Milk in 300 Days.

Maple Leaf Jean, an Ayrshire cow, owned by Capt. A. Henry Higginson, of South Liveron, Mass., has established a new world's record for her class by producing 18,079 pounds of milk in 300 days, it is announced by the Ayrshire Breeders' association. Maple Leaf Jean won first prize three times at the national dairy show and is a former Canadian grand champion.

Where Ignorance Is Bliss.

A story recently published in the Canadian Magazine says:
One day a woman who always used butter of her own making on her own table, one day discovered a dead mouse in the crock of cream. Not daunted however, she did the usual churning and produced a fine looking roll of butter. But she couldn't eat it, though she knew the butter would satisfy any one who did not know about the mouse. She took it to the storekeeper, told him the truth, and asked whether he would exchange it for a roll in his cellar.

"You know," she said, making a slight misquotation, "what the mind doesn't know, the heart won't grieve for." "Oh that's all right!" replied the obliging storekeeper. "I'm glad to accommodate you." He disappeared into the cellar, and a moment later reappeared with a roll of butter similar to the one he had taken down. The woman thanked him and departed. Two weeks later she was in the store again. "How did you like the butter I gave you the other week?" the storekeeper asked.

"It was just lovely," said the woman. "Just lovely. I couldn't have told it from my own."

"Neither could I," said the storekeeper. "You know what the mind doesn't know the heart doesn't grieve about. The butter WAS your own."

The Obliging Passenger.

A woman came on the platform of the railway station. "Do trains start here for Centerville?" she enquired timidly, of a passing porter.
"Yes, missus," he replied. "What time do you want to go?" "When it's convenient to the train," she answered with much politeness, and a look of surprise at his question.

Stony Plain Consolidated.

Stony Plain Cons. Promotions
List June 1922.

Following is the list of promotions in the Stony Plain Cons. School for the school year 1922. All names appear in order of merit.

WORLD HAPPENINGS BRIEFLY TOLD

The appointment of a permanent Canadian Trade Commissioner, to go with an assistant, to Russia, has been authorized.

The Vancouver Harbor Commission has been authorized to strengthen the Ballantine Pier sheds to carry grain conveyors.

The Government has endorsed a grant of \$66,965 to the province of Alberta "for the purpose of aiding and advancing the farming industry by instruction in agriculture."

The Government has curtailed the weekly close salmon fishing at Rivers Inlet, B.C., from midnight on Friday to 6 p.m. Sunday for the balance of the 1922 fishing season.

Because of the great loss of life and property by fire during the past decade, all citizens have been asked to observe October 9 as Fire Prevention Day.

Djemal Pasha, former Minister of Marine in the Turkish Unionist Government, chief of staff of the Afghan army, has been assassinated. Two Armenians are charged with the crime.

The reputation of the province of Quebec is not to be hurt by the recent declarations to the effect that imported cheese of inferior and dangerous quality had been sold on the British markets, states Hon. J. A. Caron, Minister of Agriculture.

The late Sir John Eaton's palatial private car, "Eatonian" has been sold in Montreal to the Canadian Pacific Railway Company. The car was furnished throughout with the most modern and luxurious manner and originally cost over \$100,000.

Because of the political and religious unrest in Ireland, which has brought practically the whole flax industry there to a standstill, three manufacturers of Armagh, Ireland—Joseph Marshall Davis, McClelland and R. R. Louden—have come over to Canada with a view to an investigation that may duplicate Ireland's flax industry in the Dominion.

Circle Tours Through the Canadian Pacific Rockies

Delightful Trip Afforded for Tourists Over C.P.R.

By the most magnificent mountain and inland water trip in the world, passing through beautiful Banff, lovely Lake Louise, Field and Glacier House to Arrowhead—steamer through the Arrow and Kootenay Lakes, winding in and out past majestic mountain peaks—touching at West Robson and Nelson enroute.

This delightful trip can be made in the opposite direction if desired, and at remarkably low cost.

Any Canadian Pacific ticket agent will gladly give full information and arrange details.

On the Marriage Day

Romance usually ceases, and history begins, and sore corns begin to go when "Putnam" is applied. It takes out corns, roots, branches, stems—no trace of a single corn left after Putnam's Painless Corn Extract has done its work, 25c at all dealers. Refuse a substitute.

War Taught British to Chew

Before the war chewing gum was practically unknown in England. Now the sales amount to over a million dollars a year.

Relieves Asthma at Once. "If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would find the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incident and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere."

Turks Strangle Criminals

In Turkey strangling and sewing a criminal up in a bag and throwing him into the sea are common modes of punishment.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced, increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

The keeping of pigeons in England was introduced by the Romans, who used them for carrying, as well as for the table.

Corns cause much suffering, but Hovey's Corn Remover offers a speedy, sure, and satisfactory relief.

No. 10 Downing Street has been the home of the prime ministers of England for almost two hundred years.

Minard's Liniment Relieves Neuralgia

There is no such thing as a thunderbolt, but the name is frequently given to a meteorite, or more often a particularly dangerous form of lightning.

TO RETAIN GOOD HEALTH FOLLOW THIS ADVICE

Most important of all is proper attention to the bowels. Avoid constipation—its the health-killer of today. Harsh purging medicine is ruinous—beware of it. Best results, follow a remedy like Dr. Hamilton's Pills, which relieve constiveness promptly and tone the bowels so that constipation becomes a thing of the past. No distress or inconvenience attends the use of Dr. Hamilton's Pills, which are famous for their mildness and efficiency. For headaches, biliousness, indigestion and liver complaint, Dr. Hamilton's Pills are just what you need. Thousands maintain their health by regulating frequently with Dr. Hamilton's Pills, 25c all dealers or The Catarothone Co., Montreal.

Quits Correct

Mrs. Scroggins—She told me that when her darter got married the bridegroom gave her a 'orse and a trap.

Mrs. Jorkins—Yes, I know—a clothes 'orse and a mouse trap.

THE REASON WHY ANAEMIA PREVAILS

The Strenuous Conditions of Life Today Responsible

Mothers who remark that girls today are more prone to anaemia than the girls of a generation ago, should read letters received by the makers in which they and their companions lived. They would easily see the reason in life's altered conditions to-day. Now the school girl's life is more strenuous; her more numerous studies are a severe tax upon the strength. Also, girls enter business soon after leaving school—at an age when they most need rest and outdoor life. Their womanly development is hampered by the stress of working hours, hurried and often scanty meals. Girls are more liable to bloodlessness to-day, but there is this consolation that this condition is now more easily remedied than in the years past. Such medicine as Dr. Williams' Pink Pills have helped thousands of weak, anaemic girls and women, simply because they contain the elements necessary to enrich the blood which means good health and vitality.

This is proved by the statement of Miss Edora Acker, Lake Placid, N.S., who says:—"I shall be glad if some other ailing girl will profit by my experience with Dr. Williams' Pink Pills. I was very much run down; my face was pale and there was dark circles under my eyes. My appetite was bad, and I had no ambition to do anything or go about. I had once before been helped by Dr. Williams' Pink Pills and decided to try them again. It proved a wise decision for in less than two months time I felt in every way better; had a splendid appetite, the tired feeling disappeared, and I can work with enjoyment. Naturally I think there is no better medicine for young girls than Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent to you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to Dr. Williams Medicine Co., Brockville, Ont.

Walruses are gentle except when attacked.

GINGHAM IS REIGNING SUPREMACY ONCE MORE

Nothing can compete with the gingham frock for morning wear and in the country. They are so cool and becoming to the majority that they are still very popular, although they have held their place of high esteem for quite some time. This one is of lavender and white check.

The List of the Missing

Search for Missing Veterans During Peace Time

There is no stronger proof of the effects of the Great War upon those who were active participants than the never-ending list of ex-servicemen recorded as missing in peace time. The most general cases are those of men whose minds become blank—temporarily in most instances. Others become touched with wanderlust, while some of the missing were undoubtedly victims of foul attacks.

The information department of the Dominion Command, G.W.V.A., has no more difficult problem to handle than that of the missing. The results are small compared with other branches of the association's work, but the sum total of reunions ensuing from these efforts, reconciliations effected and information gleaned for relatives can best be measured in terms of human happiness.

The general method of procedure is first to circulate all commands and branches of the G.W.V.A.; notification of other agencies with whom the individual might come in contact; publication of particulars in "The Veteran"—the official organ of the association; next, veteran organizations in other countries are notified, including The American Legion in the United States; the G.W.V.A. in Newfoundland; The British Legion in Great Britain (as well as the branches of the G.W.V.A.); the Returned Sailors' and Soldiers' Imperial League of Australia; Associations in New Zealand; South Africa, India and other British dependencies; France, Belgium and Italy. The extent of the search depends upon the circumstances surrounding the veteran who has disappeared.

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realises it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever engaged for.

Bright stars, when low down near the frozen horizon, sometimes puzzle even the most experienced sailors as to whether or not they are ship's lights. Reference to this fact has occasionally been made in connection with collisions between vessels in the open ocean.

STONY PLAIN FAIR, AUGUST 10 AND 11.

Holiday at the Beach.

Monday next, August 7th, will be the big day at Edmontou Beach. The Seventh is Civic Holiday in the City, and a large number of picnickers are billed to be present at this popular resort on that day.

The guessing contest, as to the number of autos on the grounds on this day, is attracting much interest, and tickets on which to make your guess may be obtained from Mr. J. A. Barrie. A \$350 lot will be donated to the person guessing the nearest to the correct number.

A record crowd was out to this resort on Sunday last, and a large number took advantage of a "dip" in the Lake.

Some Land Prices.

The price of land in this district still hold pretty high, in spite of the partial failure of the cucumber crop. For that piece of farm property between the two rights-of-way just east of town, a company is holding the price at \$100 an acre. On that piece of muskeg northwest of town and east of the Zucht & Wood plot, the price is \$50 an acre. A local man who is farming in town has offered the company \$15 an acre for this.

Before his departure last week, Mr. Gilmore sold two more lots in town—one to J. Armbruster and one to John Shearer.

In two days spent in the Carvel District, Mr. Gilmore made a good clean-up of the company's holdings.

Stony Plain and District

Send your exhibits to your local fair—August 10 and 11.

Messrs. I. and C. Umhach left Tuesday for Lacey, to engage in carpenter work.

Mr. L. Freifeld made a business trip to the city on Tuesday.

Constable J. T. Jones of the A. P. P., was in town on Monday.

Meridian Lodge held its regular meeting, Tuesday night.

Messrs. J. Shearer and Art Graden left yesterday for Lacey.

Mr. C. G. Austin, Edmontou, was in Stony on Tuesday.

For operating a motor vehicle on a highway without the required license, Stea. Pytel was fined \$2 and costs, in the local court, on Tuesday.

At same court, a long standing family squabble was aired. A charge of assault was laid by a woman against her husband. Much contradictory evidence was given. The man was fined \$5 and costs. The couple live north of Carvel.

Messrs. A. Fogarty and R. K. Mansell, who own the patent on a double-jointed, hippler sickle, are doing this district at present, selling stock in a company which intends manufacturing and putting this article on the market this season.

The next big attraction is, our fair, which opens at Stony one week today, August 10.

And now C. Witherspoon is hauling poles for the phone extension.

Karl Miller, of Golden Spike has been rusticated at Medicine Hat.

The local School Board is calling for tenders, for the winter's supply of coal for the school.

A popular barn dance will be held to-morrow night at the Meisner Barn, south of town.

The School District tax notices are now being mailed, and the ratepayers should call for their mail and not have their letters returned marked, "not called for."

The local elevators have been taking stock this week, at the close of the grain year.

When visiting the fair, see The Sun Man and renew your subscription.

A party of ranchers from New Mexico travelling in cars, were visitors to the province during the past week or two. It is their intention to take up stock raising next year, in the Telfordville district.

Won at Red Deer.

At the Red Deer Fair last week Mr. Gilbert won ten prizes for his Holsteins; ten prizes for his Berkshire exhibit; and won all the prizes (11) for his Tamworth swine. Mr. Gilbert did not make an exhibit at the Lloydminster Fair of his Holsteins, and Mr. Geo. Bevington won all the prizes given for this breed.

Holborn News.

Mr. and Mrs. J. Walton were callers on Mr. F. C. Berry on Thursday of last week.

Mr. Reuben Larson and his crew of willing workers made a great improvement to the market road.

The ladies of the U. F. W. A. treated the people of the Hol-

THE L. FREIFELD DEPARTMENTAL STORE

+++

We always have a good supply of General Merchandise in Stock.

We are always ready to give our customers a square deal; therefore it always pays to Visit Our Store.

+++

L. FREIFELD.

"HELLO, DICK !

What's the hurry? "For a load of lumber, John." "Where are you buying Lumber, Dick?" "Why, at the Atlas Lumber Co., John. There is the place where you get the quality at the right price. Lumber \$16 and up. Shingles \$5.50. Spruce Window Frames \$2.50; Spruce Door Frames \$3; and they have the best Atlas Coal at a low price."

"Let's go, Dick. I need Lumber and Coal, too."

Atlas Lumber Co., Limited

V. MOHR, Local Manager.

JOHN H. MILLER.

born district to a good dinner at Edmontou Beach. Miss Annie Kullander successfully handled the delicate task of pouring the tea.

Now I lay me
Down to sleep—
My only wish
The heavens would weep.

To us poor chaps
Who're growing grain
Naught better could come
Than a shower of rain.

The many little friends of Master Magnus Larson will be pleased to hear his broken arm is rapidly improving.

Mr. Hugh Mackinnon was down from Edson over the week end.

Mr. A. Kube, Chester Burger and H. Holland spent Sunday at the lake eating fish, and returning home with a good supply.

Mrs. Hay and son who were visiting Mr. and Mrs. J. A. Duval have returned home to Buffalo, via Winnipeg and the Great Lakes. Miss Mildred and Annie Liebert

spent Sunday with the Misses Burger's.

Friday, August the 4th is the date of the barn dance at Mr. Meisner's big, big barn. Edmontou music. Everybody come and enjoy the last barn dance of the season.

It can't rain.
Mr. J. M. Kullander and staff are busy haying.

Mr. and Mrs. F. Kimmerley are visiting Mr. and Mrs. F. G. Smith at Edmontou.

Our new telephone line is nearly completed, we will soon be able to talk to the Hello-girls.

Mr. Archie Haskill has left Holborn for the prairie.

Mr. and Mrs. J. A. Duval autored to Stony on Saturday.

Mr. Chester Kimmerley left Monday for Roseau, Alta, where he will enjoy two weeks vacation and a very much needed rest.

Master Jonnie and Philip Smith of Edmontou are spending their school holidays at the Kimmerley ranch.

Mr. Levy Stevens motored to Edmontou on Saturday last.

Mr. J. F. Kimmerley of the Kimmerley ranch, was a business visitor at Stony, on Tuesday.
